Dear TBS Community:

One of the reasons people become part of a synagogue is for the sense of *kehillah* or community that we gain. At Temple Beth Sholom, we pride ourselves on being a warm and caring community. Together we share *smachot* (happy occasions) and we comfort each other during life's difficult moments.

As part of a grant we received through UJA Federation of New York and in conjunction with Partners In Community Care, we are pleased to enclose this magnet which will remind you of the important "in case of" numbers that you have and includes the TBS Emergency Information in case you need us. We are here for you!

We have an entire team of people working hard for you... Clergy, Professional Staff and a fantastic *Hesed* (Kindness) Committee! On a regular basis we reach out to our congregation in the following ways:

- Home visits
- Hospital visits
- Help during shiva
- Meals to congregants
- Friendly phone calls

In addition, we are fortunate to be part of Partners In Community Care (PICC) which provides support groups, more intensive resources and professional social work support.

We hope you use this magnet and know we are here for you!

Wishing you a wonderful summer,

Rabbi Alan B. Lucas

Dorine Wulwick
